## **Fun Games and Drills**

### **Fox and Farmer**

You can use the entire field area or use cones to make it smaller depending on the number of kids.

Pick 1-4 Farmers depending on number of players. Using cones make a small square for a pen in the middle of the field. Give each fox a pinney and have them tuck it in as a tail. Let the fox's run around in side the field area. Then let the farmers in and they have to try and steal the tails from the fox's. The fox's go in the pen if they get caught.

After they get the hang of it you can add a ball. Have the fox's dribble a ball while the farmers try to take their tails.

### **Chain Tag (Octopus Tag, Blob)**

Players run around inside of field area. Start with one person it. They have to tag someone then they join hands and continue to tag people. When the chain or Blob gets more than 3or4 people you can break them up to multiple blobs. When you add a ball the person that is it must knock the ball away from the players dribbling around the area.

### **Freeze Tag**

Just like the traditional game. Someone is it and they tag people. If someone gets tagged they freeze. When you add a ball everyone dribbles around. If they get tagged the stand with feet apart and must hold their ball over their head. Other players can free them by pushing the ball through the person's legs.

### **Flip the cones**

Place the flat cones all over the field. Some right side up and some upside down. Have the kids run and see how many they can flip over.

### **Follow the leader**

Coach dribbles the ball around and have the kids follow and repeat everything you do. Be sure to stop the ball several times with the sole of the foot. Do some funny things and go all over the field.

### **Coach Says**

Just like Simon Says. Kids do what the coach says only if you say "coach says" If they do something when you didn't say coach says the can be out or you can make them do something funny or 10 toe taps, or side to sides.

### **Red Light Green Light**

You can do this multiple ways. The traditional way is the kids all line up on one end of the field with a ball. Coach has back to kids and calls 1.2.3 Red Light or Green light and if you catch them going on red light you move them back.

I like to do it the following way. All kids dribble freely around the field area. If you say Red Light they must stop the ball with the sole of their foot. Green light go again. If you say speed they go fast.

Things to add over time:

Toe taps

Side to side

Stopping the ball with different body parts.

### **Sharks and Minnows**

Kids dribble freely with a ball. Pick a 2 people to be sharks. Let the kids dribble around for a little bit then release the sharks. The sharks go and kick the ball away from the minnows. Stop play and have the sharks and the minnows that go

### **Killer Bees**

The kids dribble in an area (tell them they are bees and to buzz), then after awhile, have the coaches (or a few parents) walk around inside the area. It is the job of the "bees" to "sting" the big people with the ball (a pass or kick). They need to keep looking for a target and hitting it. They can only hit you in the shin below the knee. This is also called kick the coach, but I thought this was more fun with the buzzing.

### **Munchkin Knock-Out**

Players must shield their ball from other players. While protecting their ball, players try to kick any loose balls out of the area. Once their ball gets kicked out of the area they are out of the game. Any one dribbling out of the grid on their own is also out.

### **Crazy Crabs**

Crabs must sit on the ground, and move around on their hands and feet, stomach up. Players try to dribble across the area without losing their ball to the crabs. Once a player's ball is stolen, that player becomes a crab also.

### **Frog Attack**

Same as Crazy crabs, but instead the players in the field trying to steal the ball from the other players stand upright and hop like frogs

### **The Crows and the Cranes**

Each player dribbles in the grid. When coach shouts “crows”, then crows try to score while the cranes leave their balls and defend their goal. Use the center circle and the goals at the end of the field for this game.

### **Relay Dribble**

Teams of three or four. Players dribble in and out of cones which are spaced three yards apart from one another. Each team races against the other teams.

### **Team Steal**

Divide group into three equal teams. Two teams dribble across the grid from opposite sides trying to reach the other side. One team plays defense in the middle and steals as many balls as possible. Alternate team is on defense.

### **Steal The Bacon**

Divide players into two even teams. Assign each player a number. Line each team up about 30 – 40 yds apart and put a ball in the middle. Call out a number and the players that have that number from both teams run out and try to get the ball and bring in back to their teams line and stop the ball on the line.

### **Dribble Run and Shoot**

Put all the balls in the middle of the field. Divide team into two. Have each team line up on their respective goal lines with backs to the balls. On the whistle the run and take a ball and shoot and in their own goal. Try to get them to use their laces to shoot not the toe!

### **Kick the Coach**

Players dribble around the field area and try to kick the coach or coaches in the shins with the ball below the knee. This reinforces ball control and shooting/passing accuracy. They need to keep the ball close to them and the need to get up close to you in order to hit you.

### **Four Corner Game**

Make for boxes out of cones in each corner of your field. Put all the balls in the middle of the field. Split the team up into four teams with a coach/parent in each square. To start I let them use their hands. On go have each coach/parent release one player which will run and grab a ball and bring to them in the square. Then the let another player go. Do this till all balls are gone. As you progress you can let all players go at once then let them steal it from other teams. Then you can have them use only their feet.

### **Monkey in the Middle 3v1 Keep Away**

Make multiple 10x10 grids and split the kids in to groups of 4. One player in the middle and 3 out in the perimeter. Don't allow passes across the middle. Force players on the out side to move to open space.

### **Numbers Game**

Split the players into two teams and have them stand on opposite end lines. The game is played on a small soccer field. Assign each player a number on each end (1-5 on one side and 1-5 on the other side). Play a ball into the area and call out a number; those players must then sprint onto the field and play 1v1. Play until a goal is scored or the ball goes out of bounds.

Progressions: Have more than one 1v1 game going on at the same time. Call out two numbers. Mix up the numbers.

Don't be afraid to call out more than one number at a time to have either:

More than one 1v1 game going on at the same time or a 2v2 game going on.

### **Pairs Game**

Set up several small gates inside an area (one more gate than the number of pairs). The players are divided into pairs who play 1v1 to the small gates. Each pair has a ball; whoever has the ball tries to dribble through as many gates as they can. When they lose the ball the other person tries to score as many points as they can as well.

Progressions: Score by dribbling through a goal. Score by dribbling through the goal and stopping the ball within two yards for your opponent to take.

Try to make sure everyone is with a partner of relatively the same ability

The progression is good because if one player is dominating the other player will get plenty of opportunities

### **2v2 to Multiple Goals**

Use the same set-up as in activity three but now each pair becomes a team. Play 2v2 into the multiple goals.

Progressions: A team can score by dribbling through a goal. A team can score by passing through a goal. A team can score by passing the ball through a gate to their teammate on the other side.

Have three or four small goals so their isn't a lot of congestion

Can we try to score on a goal where there is not a defender (very simple language for advanced tactical concept of playing the ball away from pressure)

**Four Corners**

Four Cones in a 10 x 10 yard square. Three players (A,B & C) to form a triangle, leaving one cone open. The ball is placed at the top of the triangle (Player B). (See Figure).

Player B has two choices to pass. The player not receiving the pass moves to open cone to form new triangle.

*Note:* The player receiving the ball should receive the ball with his "Outside" or "Away" foot so that he is *open to the field*. In other words, if he is at cone A and receives the ball from the player at cone B he must receive the ball with his right foot - the one closest to cone D. This is a fundamental requirement that the coach must reinforce and correct. It will become much more apparent why this is important when we add defensive pressure.

The easiest way to get players doing the drill properly is to tell them to pass the ball "clockwise" only from A to B to C to D to A, et. al. This allows the player to know where to pass the ball and allows the other players to know when to move to the open cone. Movement and passes become automatic. Once they get the hang of the movement tell them to reverse the passes and only pass the

Figure A.

**Correct Push Pass is a must!**

Passes should be crisp, with pace, and straight along the cone-lines. Passes should be made quickly without waiting for the receiving player to actually get to the cone. This teaches young players about the concept of "*Passing to Space*".

**Relay Race**

Split into two teams. Set up two rows of cones as shown in figure.

Players will do a relay race starting at the first cone. They will Dribble to the 2nd cone, turn and come back to first, turn, go to third, back to second, turn, then out to the last. One they reach the last, they turn back towards the line and make a pass to the next player from the second cone. Next player goes. First team finished wins!

Lots of running and ball control needed.

### **Two Goals Back To Back**

Place two goals back to back (or use cones) and then mark off the field so there is at least a 30x20 yard space in front of each goal. Use two goalkeepers and it's 4 vs. 4 on the field. Each team can score on either goal. The goalies are neutral and should always distribute the ball (even after goals) to the space on the left without favoring any team. Use throw-ins for any balls out of bounds. Extra players should rotate in after each goal.

- Split into even teams, rotate if team cannot be made even or add a neutral player
- Players should be looking for a shot on goal or a pass
- Goalies should always be ready

Add an extra ball or two for a faster pace.

### **Run & Shoot, Run**

One Goal keeper, one passer and one shooter.

8-10 balls with passer and on whistle the passer delivers a ball from side for shooter to hit first time. Shooter then runs back around the cone shoots next ball. Continue with all balls. This is good shooting practice because often you must shoot the ball when your legs are tired or you're winded. Good for conditioning. Players switch places after shooter is done.

- If the players are having difficulty crossing the ball, use a coach or have them throw-in the ball
- Monitor to make sure every player gets a shot on goal
- Rotate the shooter and crosser
- Set up a few cones to give an idea on where the ball should go

Good for conditioning

### **Shoot for Corners**

Start with stationary balls lined up about 12 to 15yds away from the goal.

Put a disc with a ball on top in each corner up against the goal post.

Have each player run to ball and shoot for corners.

#### Progression1

Add a goal keeper, but don't let them move from the middle of the goal. Force players to shoot for corners.

#### Progression2

Have coach pass the ball to players and have them run toward the ball and shoot on the run.

### **Catch, Throw & Save**

Start with one Goal Keeper and one to two crossers. Everyone else will be moving around the play area, dribbling their ball or some other activity..

Keeper tries to stop and redistribute to the crosser.

Reset and go again.

- If the players are having difficulty crossing the ball, have them throw-in the ball
- Monitor to make sure every player gets a turn
- Rotate the goalie and crosser

Set up a few cones to give an idea on where the ball should go

### **Goal Alley**

### 10 X 15 Area

Players work in pairs with one ball between them. Each player defends his/her goal line while trying to score on their opponent. Players have unlimited touches but must remain in their own side of the playing area. Hands cannot be used. Players try to block shots and control the ball to prevent the goal. Change partners after 5 minutes. As a progression add the rule that if the ball rebounds across the halfway line or out over the side line when a save is being made, possession goes to the opponent.

### **Outta There**

In a 25 x 15 yard grid with a goal at each end, play 1v1. The coach stands on the touchline with a supply of ball and a **small** line of players on each side. The coach plays a ball in and the first person from each line plays 1v1. If a player scores they stay on and the other person leaves. A ball is immediately played back into the game. If the ball goes out of bounds both players are “outta there.” This should be a very fast paced game.

Progressions: Start with 1v1 and progress to 2v2.

- This game should be **very** fast paced
- As soon as the ball goes out of bounds throw another ball in immediately
- The coach is the master of the balls, look to see for players that aren't having a lot of success and distribute the ball straight to them

Vary how balls are distributed into the playing area

### **Everyone vs Everyone**

Set up several small gates in the playing area. Give half to three-quarters of the team a ball. Players with a ball try to dribble/shoot through as many of the small gates as they can. Players without a ball try to steal a ball from someone who has one and then they try to score. Play multiple games and allow everyone to have a chance to beat **their own** score.

Progressions: Define how goals are scored - by dribbling or shooting.

Don't tell the players that they can't dribble through the same gate twice, see if anyone is creative and dribbles through the same gate back and forth

As soon as players go through a gate they should look up to find an open gate and then go for it!

### **Throw In Side line drill**

Using the side line make two lines of players. One off the field to take the throw in the second on the field to receive the throw in. The first players throw's the ball in to the player on the field close to the side line but toward the opponents goal. The player receiving the ball moves toward the ball. After the thrower throws the ball in that player must run on the field and move toward the goal in 2v1 with a goal tender.

## **Killer Whale**

### **KILLER WHALE-** Dribbling and shielding

**Setup-** create a large circle with cones. Have 4-14 players inside the circle dribbling with a soccer ball. Two defensive players wearing pinnies are the "Killer Whales"

**The object of the game** is for one or two "killer whales" to kick as many soccer balls outside of the circle as he can. Each ball that goes out is worth a point.

The O's with a soccer ball try to shield the ball from the killer whale(X's). If his or her ball gets kicked out, they retrieve the ball and continue dribbling in circle.

The "killer whales" can usually can go for 30 to 60 seconds and keep track of their score. Make sure everyone has a chance to be killer whale. The player who kicks out the most balls wins.

Use stop watch.

You can use one or two killer whales

## **EXPLODE**

**EXPLODE-** dribbling

Setup- make two large circles with flat cones. The outside circle should be 15-20 yards from the inner circle.

**The Game-** Players dribble inside the small circle of cones. On the coaches whistle, players explode to the outside and dribble their ball around an outside cone. First player back to inner circle wins.

When players come back, keep dribbling.. coach blows whistle again or make last player back do 10 "ball taps" with the bottom of his cleat.

**Coaching Points-** when exploding, body low, use the shoe lace part of cleat to take off.

Snake Dribbling.

The purpose of this activity is to improve the dribbling skills of young players aged 6-10.

The game is played in a grid that varies depending on the needs of the players. Make the grid smaller to make it more difficult for the players. Make it larger if the players are finding it difficult to achieve success. The coach must experiment with the size and find what works best for his or her team.

Divide players into groups of three or four. Have them stand in line, forming a "snake." The

middle player starts with the ball.

The middle player (Player B) must try to follow the first person, or "head" of the snake (Player A) while dribbling. The third player (Player C) follows the second player and so on. From front-to-back, the players should be arranged as follows:

**Player A (head of snake), Player B (Dribbles ball), Player C (follows dribbler)**

On command, the middle player becomes the new head of the snake, while the old head of the snake goes to the end of the line and player C now has ball in middle. Now the players will be arranged as follows:

**Player B (head of snake), Player C (Dribbles ball), Player A (follows dribbler)**

Play continues as long as players are benefiting from the activity. It is best to use this activity as a warm up. No score is kept as players are concentrating solely on their technique.

### Coaching points:

1. Head of snake should move at different speeds, including stopping.
2. Encourage moving in many different directions.
3. Middle player must keep eyes up to see the head of the snake.
4. Encourage use of many different surfaces of feet in contact with ball.

**Category:** Dribbling

**Type:** Game

## RUNNING BASES

### The Game

- Players try to dribble their ball without being tagged. If they get tagged, they exchange places with the "tagger"

- Have taggers carry a pinnie to distinguish themselves. Hand pinnies over to the player that is tagged and use their ball to dribble.
- Players are save in any one of the 4 bases. Only one player allowed in a base at one time. If a new players enters a base, the old player must leave.

### **Variations**

For younger players:

- Only one tagger
- Fewer bases
- Only one player in a base at a time

For older players:

- More bases and taggers.
- 2 players allowed in each base.
- Play with fewer balls: can only be tagged if you have the ball. or, if you don't have a ball (balls must be passed).
